

eWorkPulse

Workforce Intelligence for
Modern Organizations

Transform Workforce Activity
Into Business Intelligence

Most Organizations Measure Attendance. Very Few Measure Productivity.

What Leaders Often Know

- Who is physically present or logged in.

What Leaders Often Don't Know

- Who is highly productive vs. just active
- Who is overloaded and at risk of burnout
- Who has available capacity for new projects
- Which teams need immediate support
- Where productive time is quietly being lost

Attendance ≠ Productivity.

Three Critical Blind Spots Costing You Growth

01

No Visibility Into Real Productivity

Leaders lack actionable insights into how productive time is actually spent across remote, hybrid, and in-office teams.

02

Overloaded Teams & Underutilized Resources

Workload imbalance remains hidden. Some employees experience severe burnout while others have untapped available capacity.

03

Missed Deadlines Due To Poor Capacity Planning

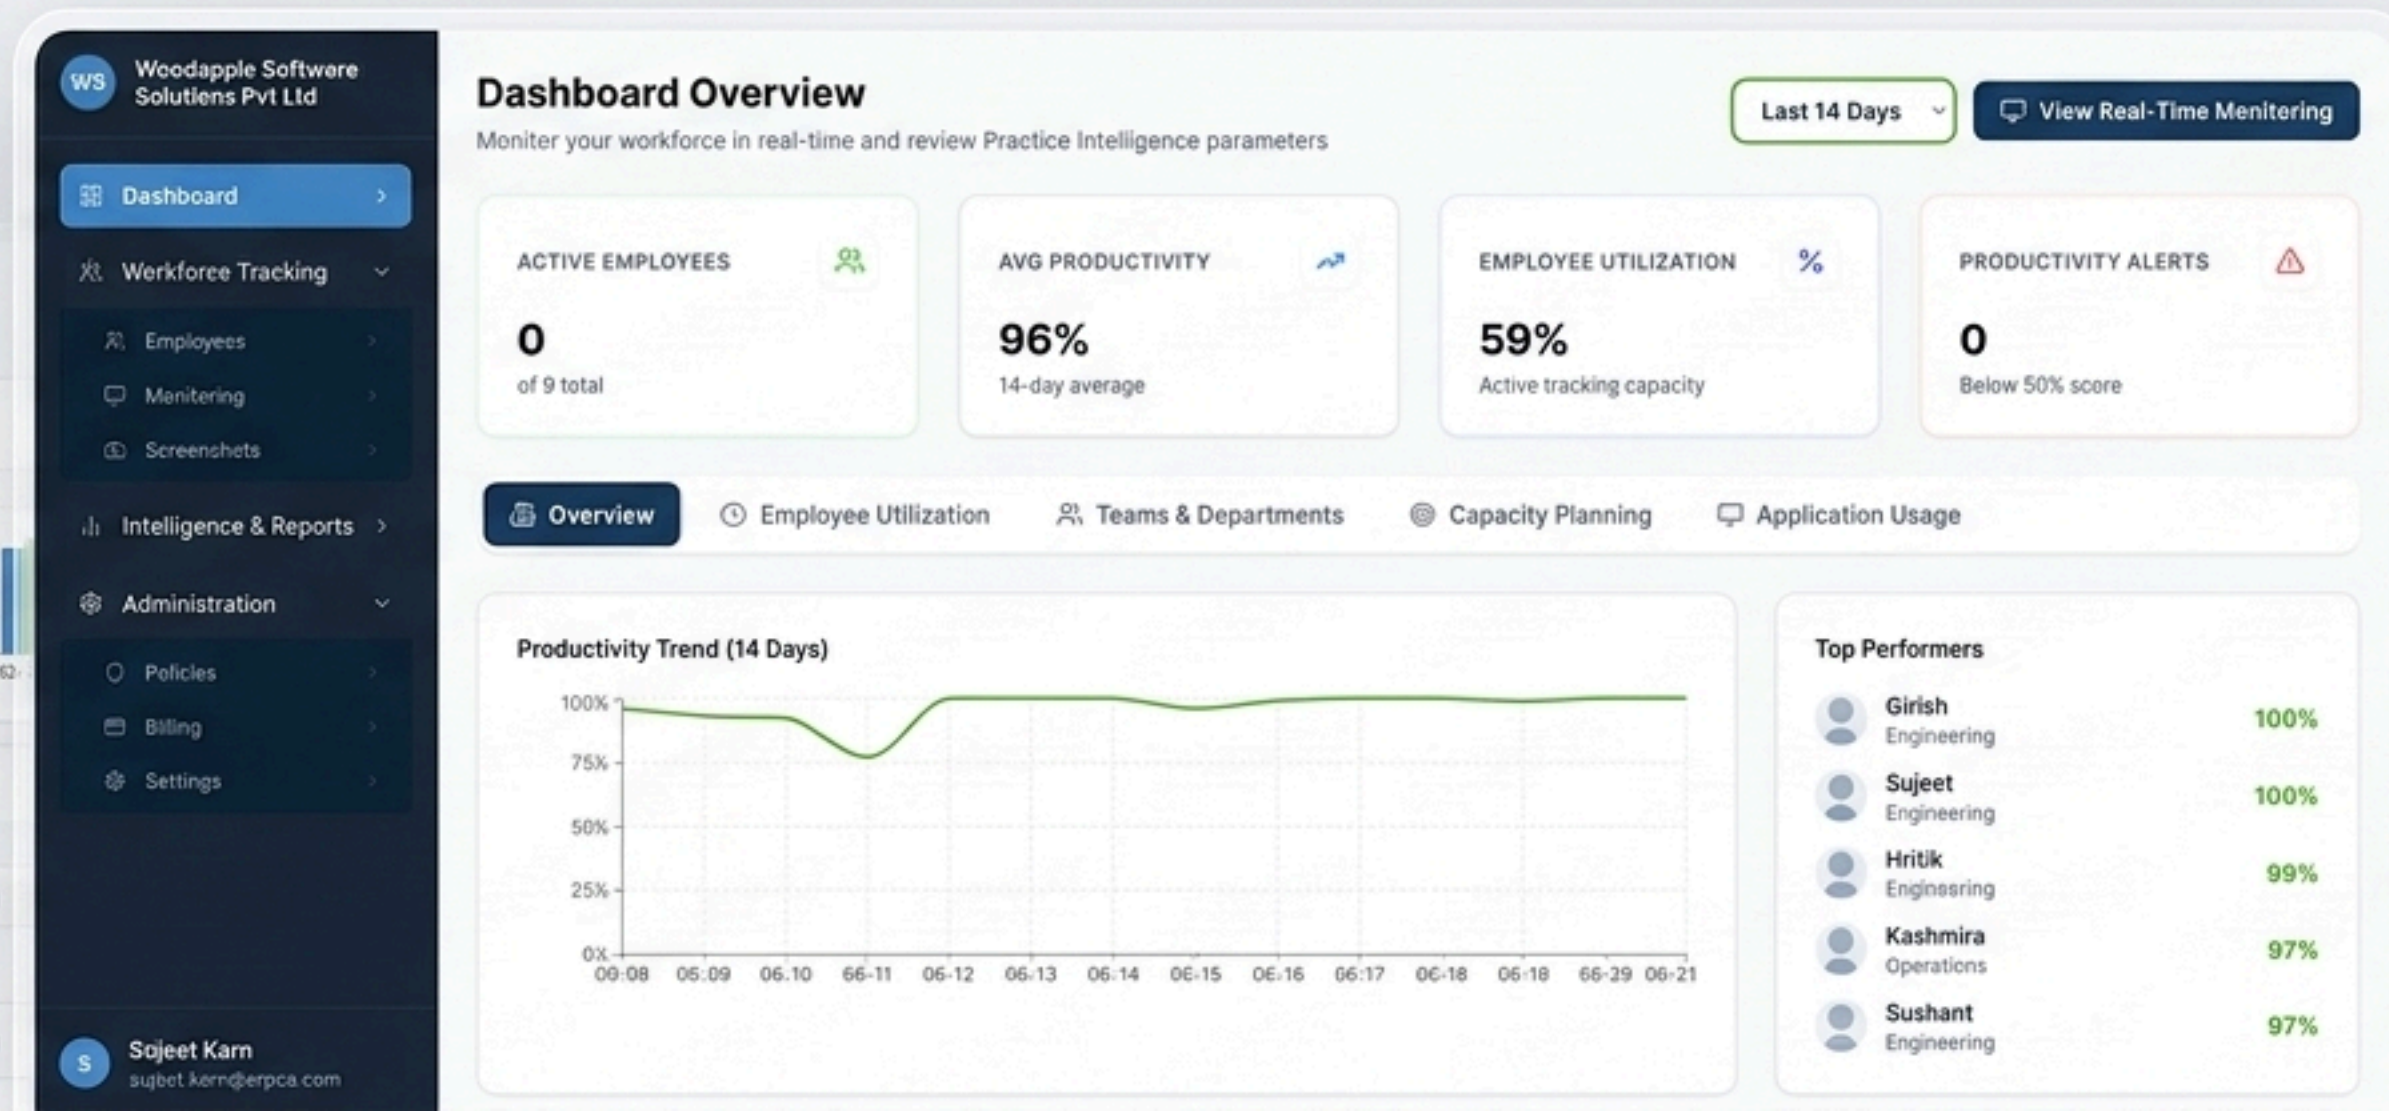

Without accurate workforce intelligence, project forecasting and resource allocation become pure guesswork.

What You Can't See Is Costing You More Than You Think

See Beyond Timesheets. Understand Real Productivity.

A Workforce Intelligence Platform designed for modern,
high-performance organizations.

Pages	Status	Actions

NEUROVIA TECHNOLOGIES

Four Pillars of Workforce Intelligence

Visibility

Move beyond tracking. Answer exactly which teams are productive and where time is being lost.

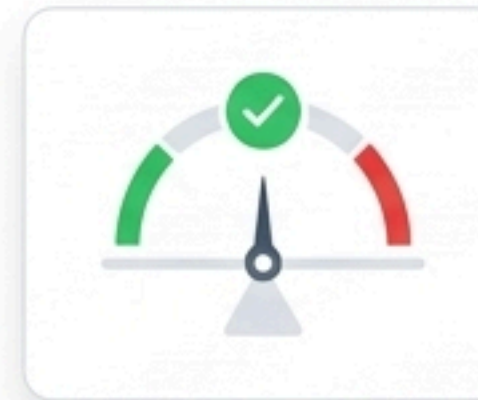

Utilization

Replace guesswork with system-verified data to ensure the right people are assigned to the right work.

Capacity Planning

Identify under-utilized bench strength ready for new project allocation before deadlines become crises.

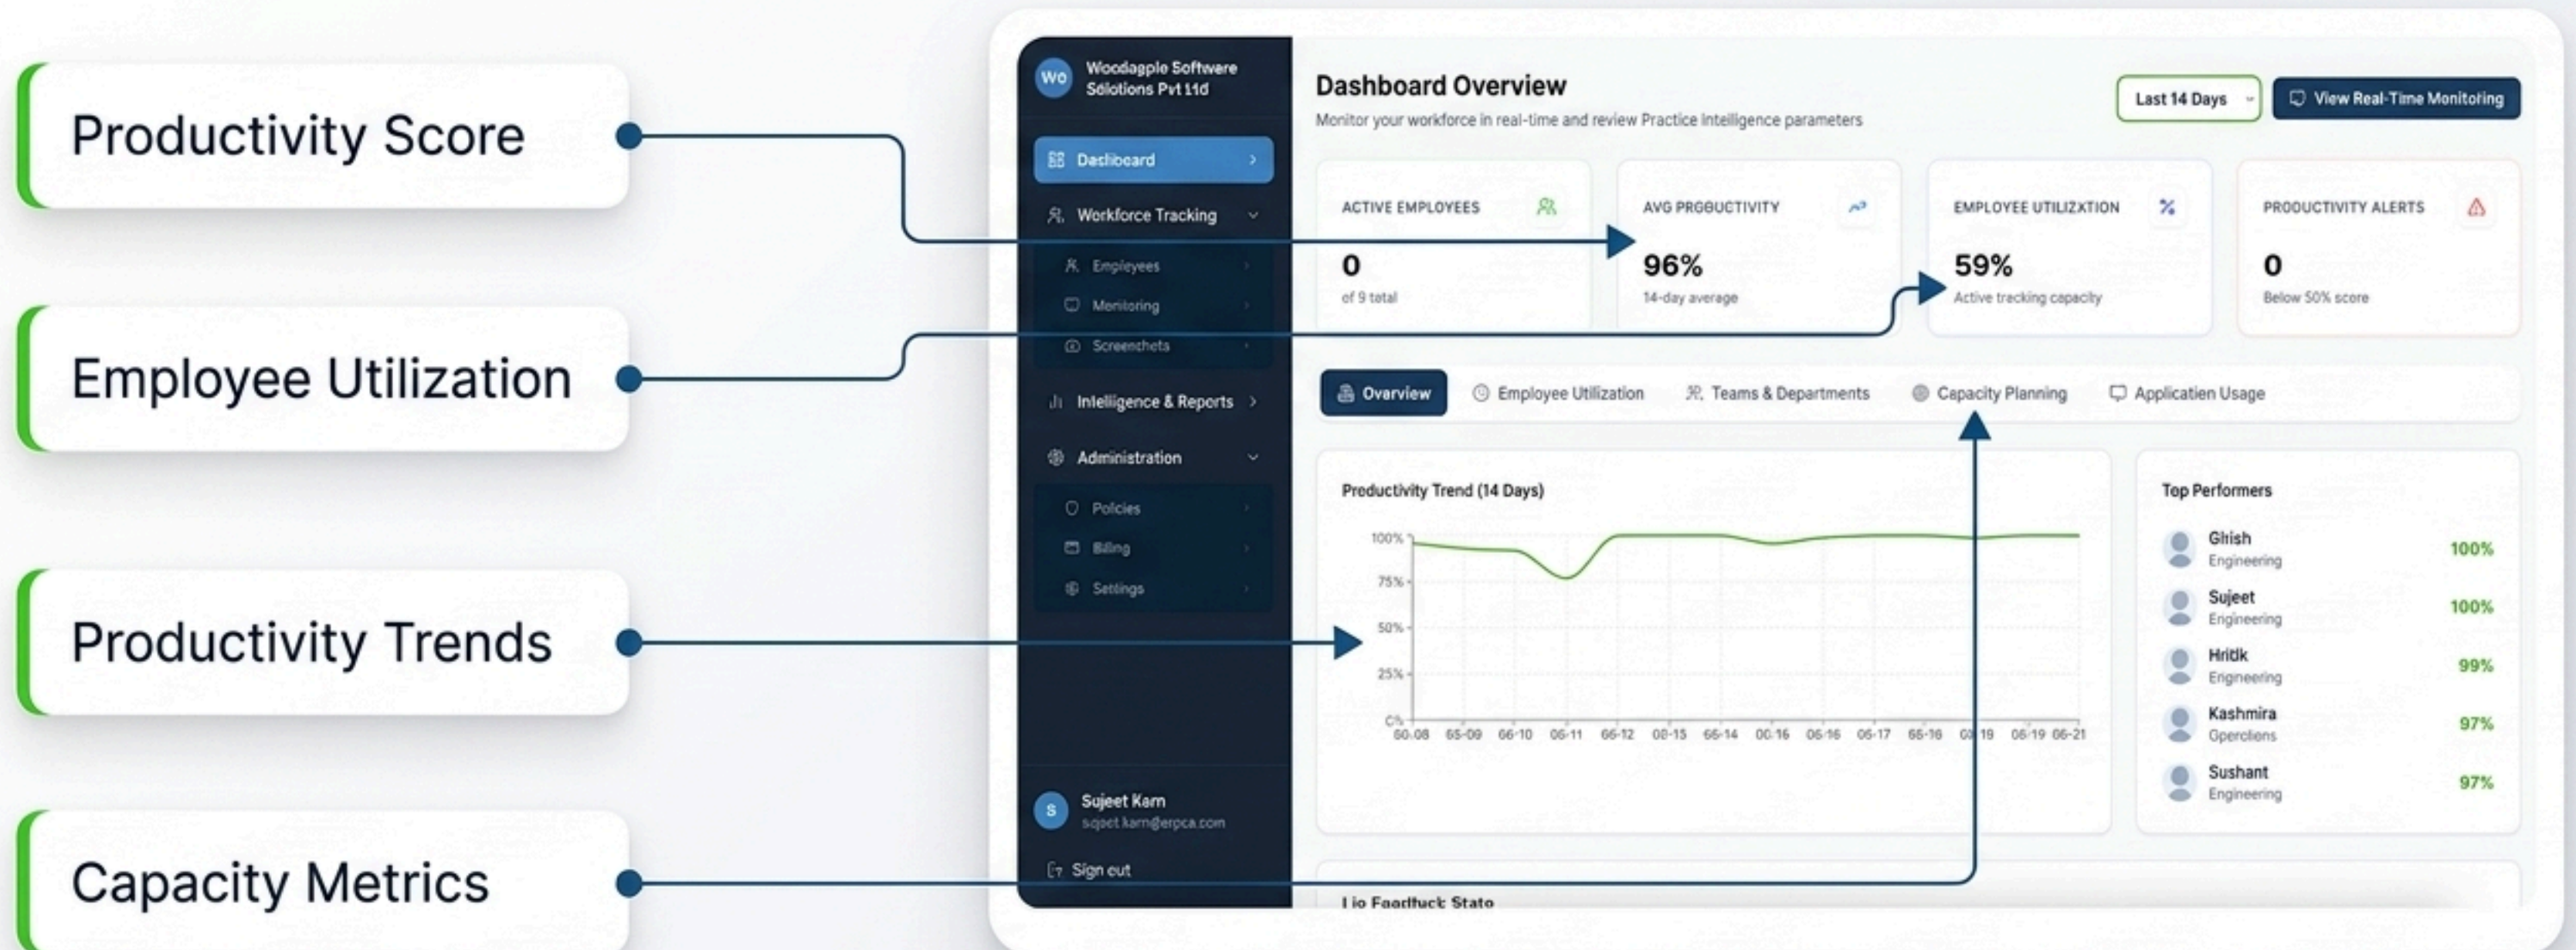

Wellbeing

Support employee health by identifying continuous overtime and workload imbalances before they cause attrition.

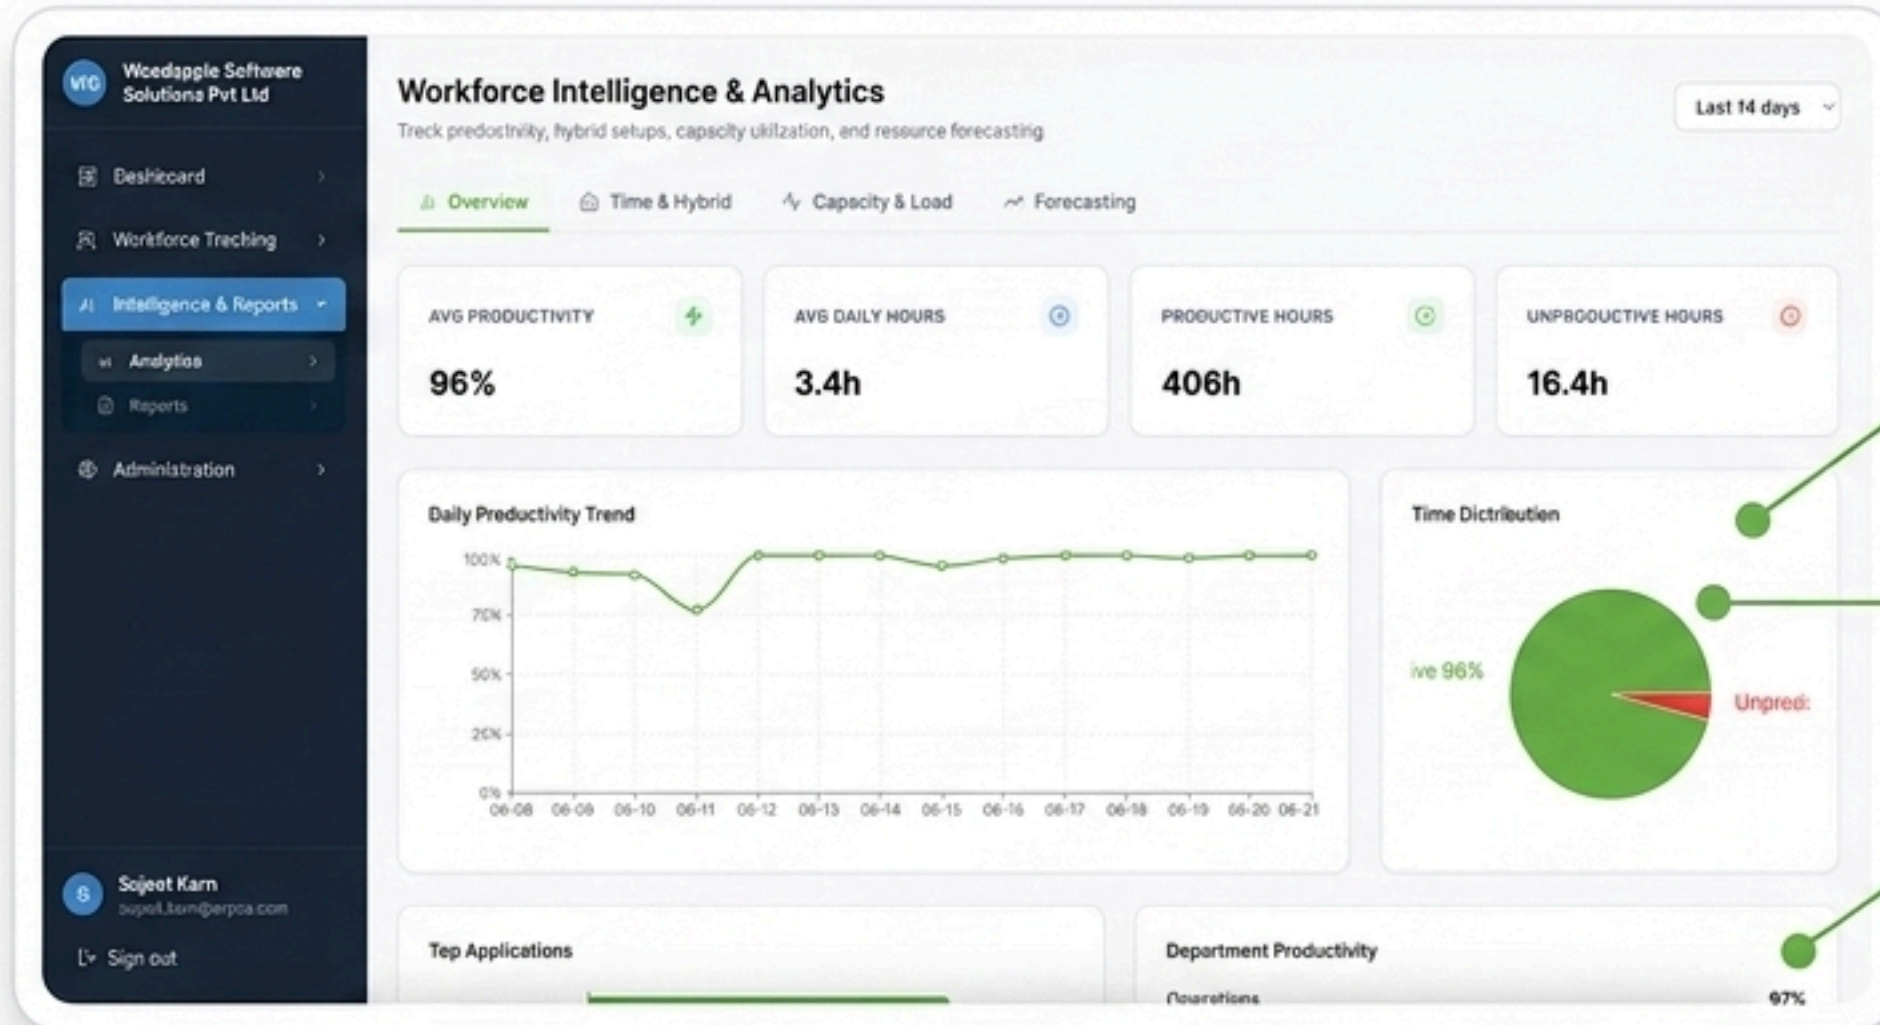

A Single Source of Truth for Leadership

Everything the C-Suite needs to monitor organizational health in one place.

Move Beyond Tracking to Understanding

Track hybrid setups, capacity utilization, and resource forecasting seamlessly.

Time Distribution

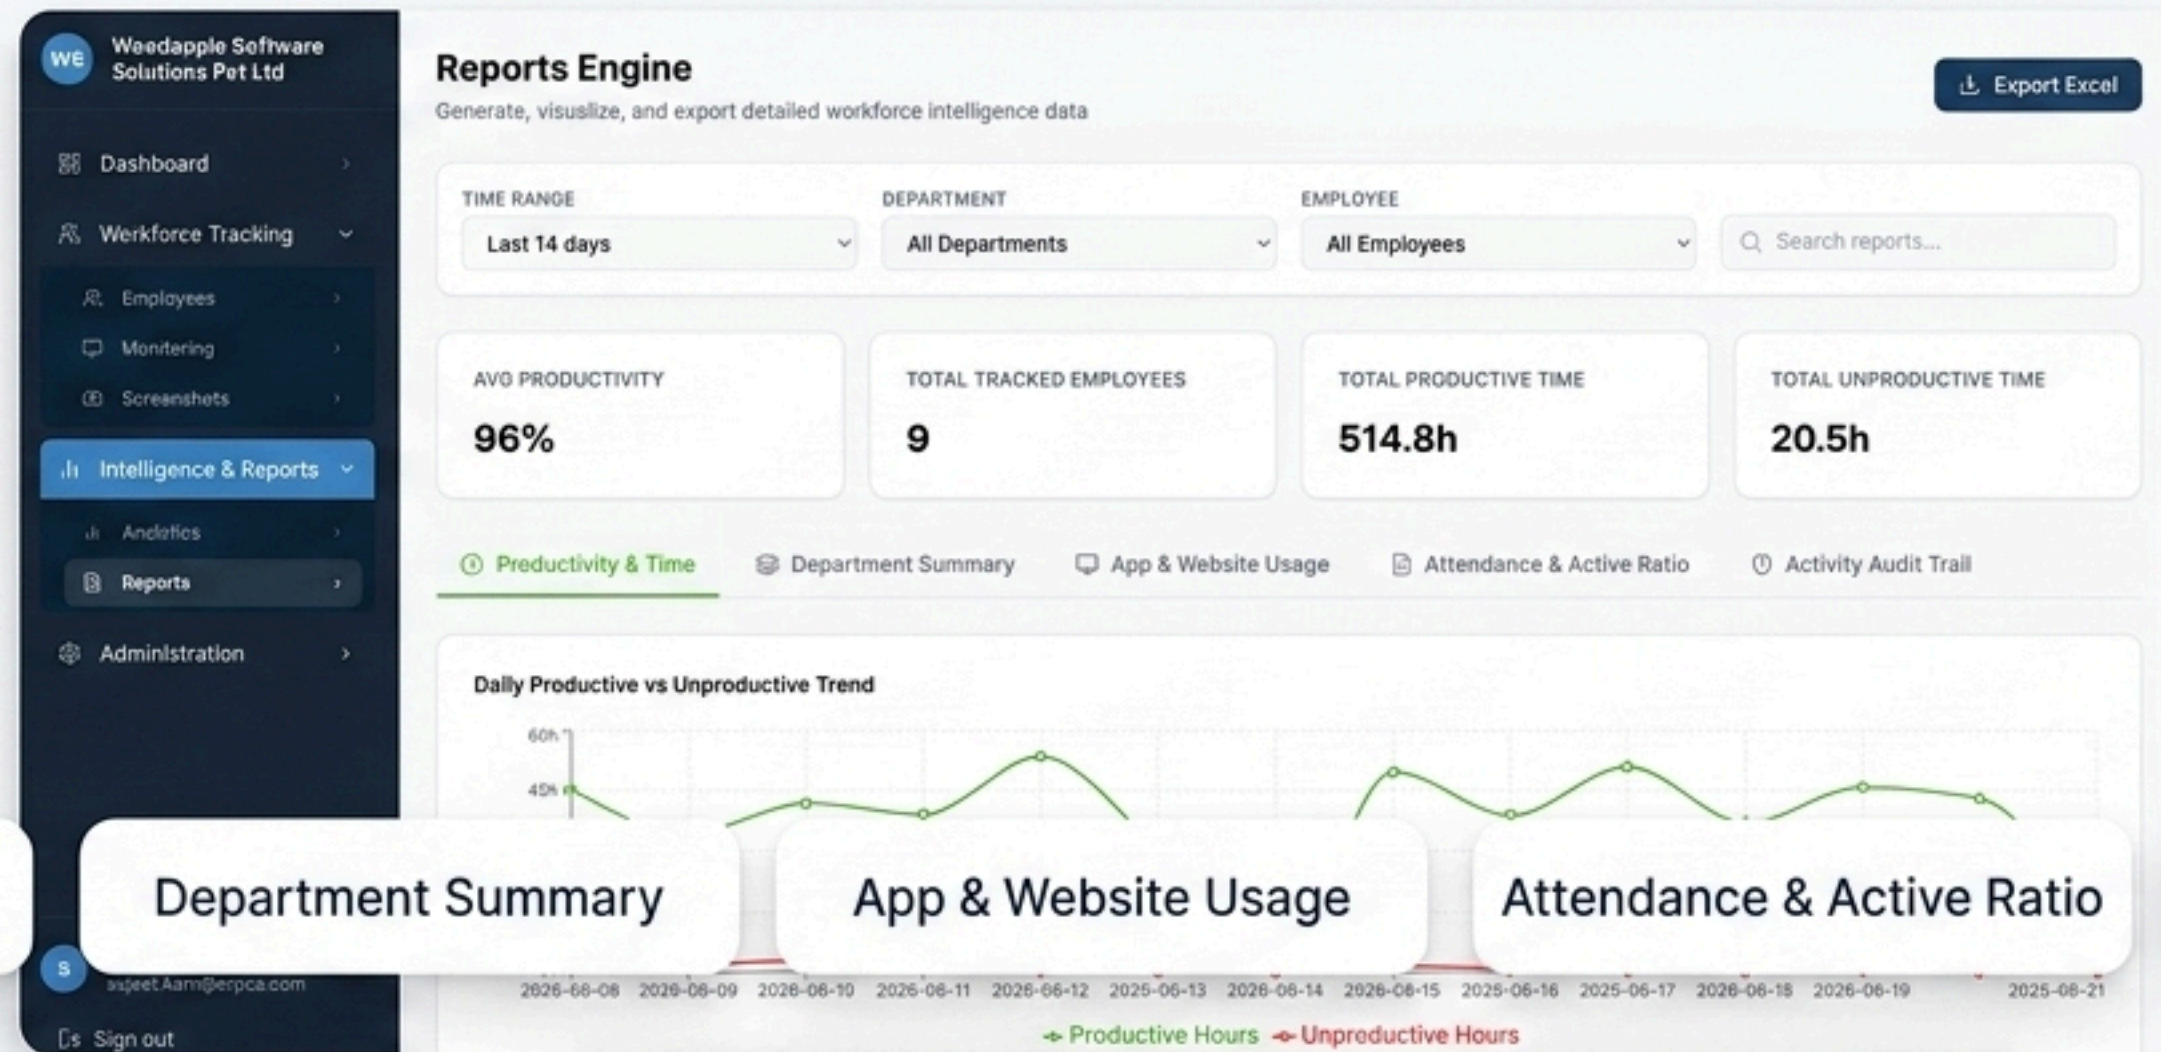

Productive Hours vs. Idle Time

Department Productivity

Organizations using eWorkPulse typically identify **8-15% recoverable working hours** per month.

Move From Assumptions To Data-Driven Decisions

Generate, visualize, and export detailed workforce intelligence data in seconds.

Productivity & Time

Department Summary

App & Website Usage

Attendance & Active Ratio

Activity Audit Trail

One-click XLSX export with full granular data.

Prevent Burnout Before It Impacts Performance

Healthy Teams Deliver Better Results

Automated Capacity Planning flags over 100% utilization for manager intervention.

Diagnostic Panel

Excessive Hours

Continuous working flagged over 100%.

Workload Imbalances

Hidden imbalances across identical roles.

Productivity Decline

Sharp drop patterns identified.

Consistent Overtime

Regularly logged overtime monitored.

Support Employee Wellbeing While Improving Operational Performance.

Delivering Measurable Business Outcomes

Higher Productivity
87% average
improvement reported

Improved Accountability
Billing accuracy jumps
to 97%+

Reduced Burnout
Balanced workloads,
less attrition

Faster Decision Making
Real-time data, no daily
status meetings

Better Resource Planning
Right people, right work,
verified capacity

Increased Profitability
Optimized utilization
drives bottom-line

Intelligence for Every Level of Leadership

CEO

Single source of truth for **organizational productivity** and **profitability**.

**COO /
Operations Head**

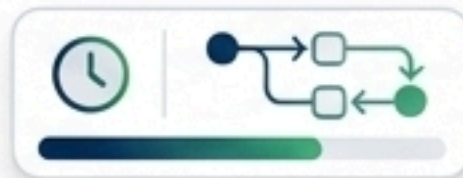

Real-time **capacity planning** and optimized **resource allocation**.

CHRO / HR Head

Proactive burnout **prevention** and verifiable **wellbeing metrics**.

**Practice /
Department Heads**

Elimination of manual timesheets and enhanced **billing accuracy**.

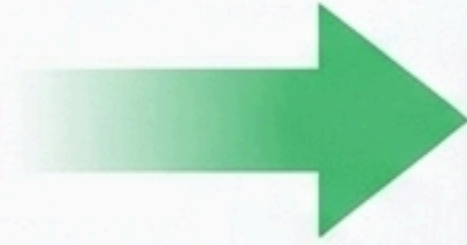

IT Leadership

Ultra-lightweight deployment (3 mins per workstation) with **full system info monitoring**.

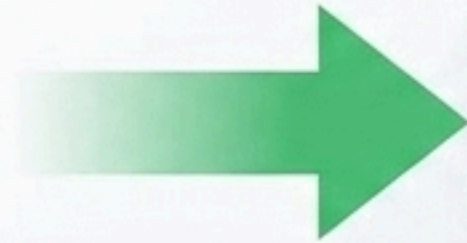

The eWorkPulse Paradigm

Not Monitoring.

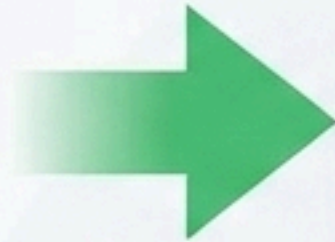

Intelligence.

Not Surveillance.

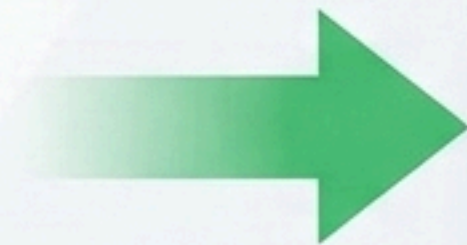

Visibility.

Not Micromanagement.

Better Decisions.

Not Self-Reported.

System-Verified.

100% passive, background operation. Zero employee workflow disruption.

Empowering Leaders Across Industries

Trusted by 200+ organizations to build transparent, data-driven work cultures.

Know Your Team's Capacity Before Deadlines Become Crises.

Productivity is not about working more. It's about working smarter.
